

The one: the Brother PQ1600S

You want one machine that can do it all. The **Brother PQ1600S** single stitch sewing machine combines **speed**, **power**, and **versatility** in a single, reliable package.

One machine, endless possibilities

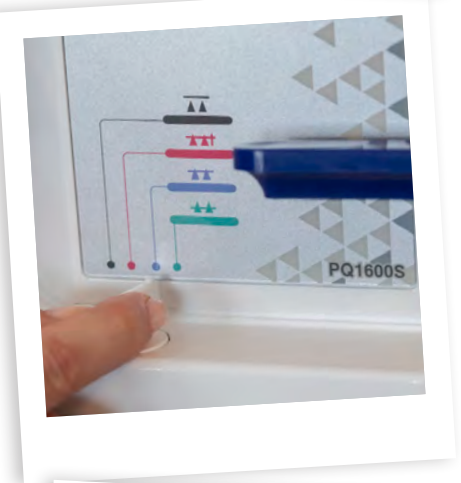

The Brother PQ1600S is the one and only machine any serious sewist needs.

Sew straight and strong across garments, accessories, quilts and more. Power through any project with high speeds of up to 1,500 stitches per minute, transforming your creative dreams into reality in no time.

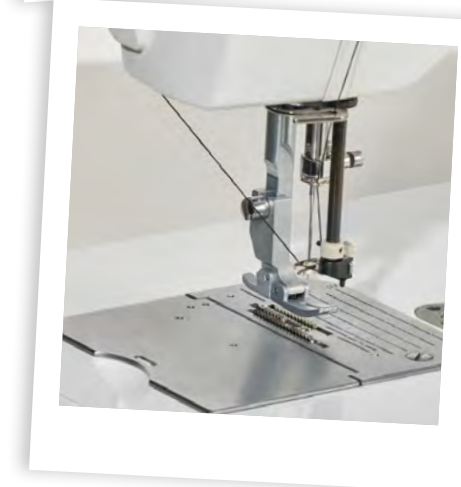

Long and strong

Sew stitches up to 7mm long without losing strength or quality.

Super-size your projects

Work on any sized project with more height and width in the fabric bed area of 145 x 220 mm (5.7" height x 8.6" width). Go large with no fuss and no extra expenditure with the included wide table.

Presser-foot pressure adjustment dial

Tackle a wide variety of fabric thicknesses with a smooth and consistent stitch quality using the ergonomic, colour-coded presser foot pressure dial.

Features In-Depth:

- 1,500 stitches per minute
- Expanded work area for large-scale projects
- Heavy-duty construction for increased stability
- Up to 7mm stitch length
- Unique flexible presser foot
- Four feed dog height adjustments
- Pin feed mechanism for easy fabric management
- Colour coded foot pressure adjustment
- Automatic thread cutter
- F.A.S.T. needle threader
- Thread tension dial
- Heavy weight thread guide
- Programmable needle position (down)
- Knee lift included
- Variety of presser feet included as standard
- Built-in telescopic thread stand for cone thread usage
- Bright, but gentle LED light

Flexible presser foot

Unique presser foot divided into front and rear sections that can move independently. Sew different thicknesses at the front and rear. Achieve perfect results on hems, French seams and more.

Advanced needle threading system

The F.A.S.T needle threading system saves time and effort, so you can work through projects in extra quick time.

Knee lifter

Keep your hands on your work with the removable knee lift.

Vertical rotary hook

Strong and robust, the vertical rotary hook will produce clean and aligned seam finishes.

Bobbin case cover

The side cover makes care and maintenance around the bobbin case a breeze. A metal bobbin is provided for durability and increased thread capacity.

Thread tension

Achieve accurate tension control with the convenient manual dial system.

Automatic needle lowering mechanism

Pre-program the needle down position so that when the machine stops, you're ready to jump back in.

Heavy-weight thread guide

Take on thick threads in combination with thick materials with minimal adjustments to your tension.

Feed dog adjuster

With four built-in feed dog positions the PQ1600S can tackle a wide variety of fabrics, from heavy-duty denims to tricky velvets.

Automatic thread cutter

Snip your top and bottom threads instantly at the touch of a button.

Precision pin feeding system

Easily sew a wide variety of fabrics, especially thin, slippery and soft materials, thanks to Brother's Pin Feed precision fabric feeding system.
